

# THALARI PEDDA CHENNAIAH

Data Science • Machine Learning • AI Engineering

+91-7207299453 | chennaiahthalari37@gmail.com | [Linkedin](#) | [Portfolio](#) | Nandyal, Andhra Pradesh

## PROFESSIONAL SUMMARY

Results-driven B.Tech Data Science student (9.4 CGPA, Top 5% of class) with hands-on experience building and deploying production-level AI/ML and NLP applications. Skilled in end-to-end ML pipelines from data preprocessing to live deployment via Streamlit and Flask. Holds 6 certifications from Oracle, IBM & Microsoft. Seeking internship or entry-level roles in Data Science, ML, or AI Engineering.

## TECHNICAL SKILLS

**Languages:** Python, Java, C  
**ML / AI / NLP:** Scikit-learn, Transformers, Bio\_ClinicalBERT, NLP, Deep Learning, Sentiment Analysis, Text Classification  
**Data Science:** Pandas, NumPy, Feature Engineering, EDA, Data Visualization, Statistical Modeling  
**Deployment & Web:** Streamlit, Flask, REST APIs | Deployed on: Render, Netlify, Streamlit Cloud  
**Databases & Cloud:** SQL, SQLite, Oracle Cloud Infrastructure (OCI)  
**Developer Tools:** Git, GitHub, Jupyter Notebook, VS Code, MS Excel

## PROJECTS

**Medical Report AI Analyzer** | [Live App](#) | Python • NLP • Bio\_ClinicalBERT • Streamlit • Healthcare AI

- Engineered an AI clinical report analysis system using Bio\_ClinicalBERT to extract biomedical embeddings from patient text and classify health risk levels in real time.
- Built an interactive Streamlit interface for report uploads and automated risk prediction, bridging complex NLP models with non-technical end users.

**CropSense — Intelligent Agricultural Advisory System** | [Live App](#) | Python • Scikit-learn • Data Analytics • Streamlit • Render

- Developed a multi-page Streamlit app providing AI-driven crop recommendations based on soil, temperature, humidity and rainfall; trained & optimized Random Forest, SVM, and Decision Tree models.
- Deployed the full application on Render, making real-time, data-driven crop advisory accessible to farmers and agricultural professionals via a clean web interface.

**Hostel & Canteen Feedback Intelligence System** | Python • NLP • Sentiment Analysis • Data Analytics

- Built an NLP sentiment pipeline to auto-classify student feedback by category (food quality, hygiene, service) and flag priority complaints for management action.
- Delivered structured, data-driven complaint reports enabling faster issue resolution through automated triaging and insight generation.

## EDUCATION

**B.Tech — Computer Science & Data Science (CSD)** Expected 2027  
RVR & JC College of Engineering | Acharya Nagarjuna University | CGPA: 9.4 / 10.0 | Top 5% of Class

**Intermediate — MPC** 2023  
Sri Chaitanya Junior College, Vijayawada | Board of Intermediate Education, AP | 98%

**Secondary School Certificate (SSC)** 2021  
Sri Chaithanya Techno School, Nandyal | Board of Secondary Education, AP | 97%

## CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 — Foundations Associate
- Data Fundamentals (IBM, 2025)
- Database & SQL (Infosys Springboard, 2025)
- Artificial Intelligence Fundamentals (IBM, 2025)
- Java Foundation (Infosys Springboard, 2025)
- Introduction to MS Excel (Microsoft / Simplilearn, 2025)

## KEY HIGHLIGHTS

- Deployed 2 live AI/ML web applications as a 2nd-year student — rare among peers and a strong signal of practical, production-ready engineering skills.
- Earned 6 industry certifications from Oracle, IBM, Microsoft & Infosys within a single academic year, demonstrating a strong self-learning drive.
- Active participant in competitive coding contests and hackathons through the college Coding Club.
